

Retail Realm Essentials

powered by Microsoft Dynamics

“Retail Realm Essentials™ powered by Microsoft Dynamics”

Retail Realm Essentials™ - is a retail management system for the small and medium business (SMB) that manages both store and head office functionalities. The solution is based on the Microsoft Dynamics AX platform that supports multiple businesses and geographies. The solution can scale up and become full Microsoft Dynamics AX as the organizational requirement becomes more sophisticated.

Market Segments

Retail Realm Essentials™ - is a solution that is highly configurable and customizable and is well suited for a variety of retail segments. It is well suited but not restricted to the retail segments below:
